If you play with me

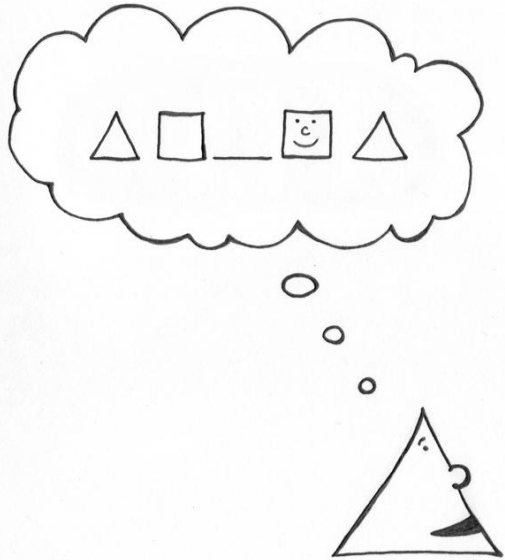

I will be your best friend.

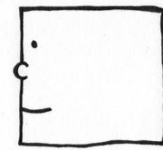

If you let me go first

I will be your best friend.

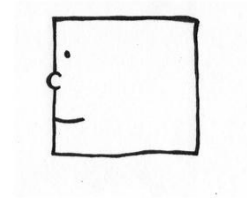

If you save a place for me

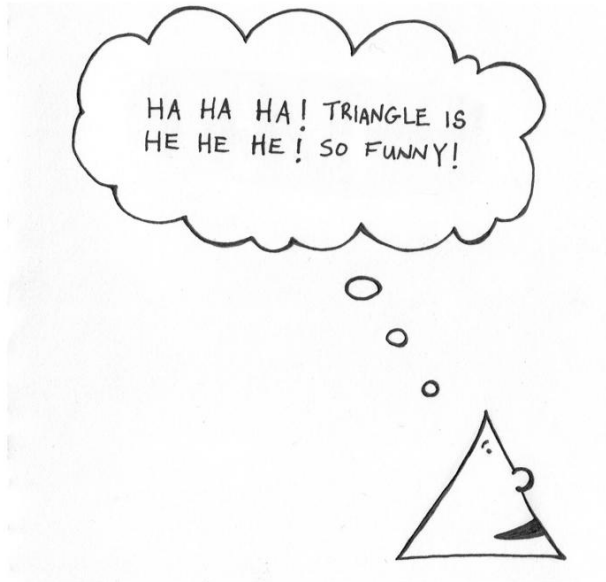

I will be your best friend.

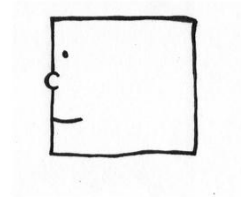

If you share with me

I will be your best friend.

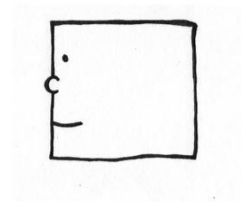

If you think I am funny

I will be your best friend.

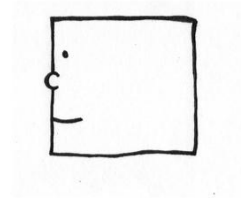

If you forgive me

I will be your best friend.

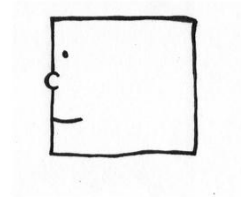

If you help me

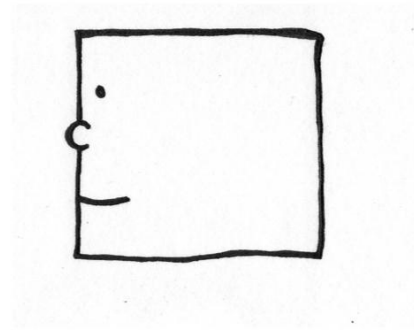

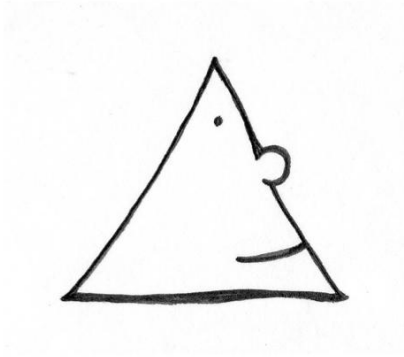

I will be your best friend.

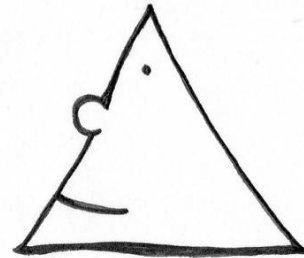

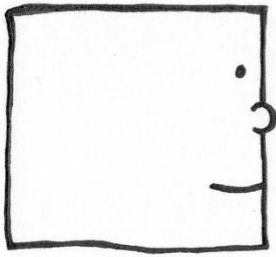

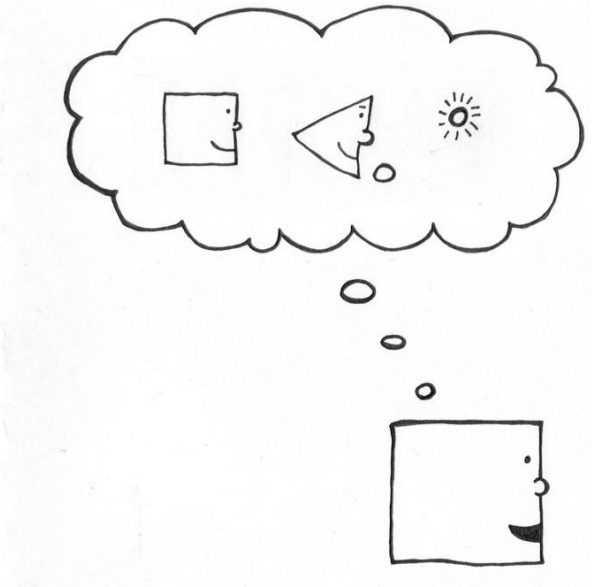

If you love me always

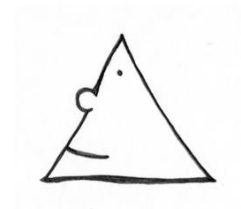

I will be your best friend.

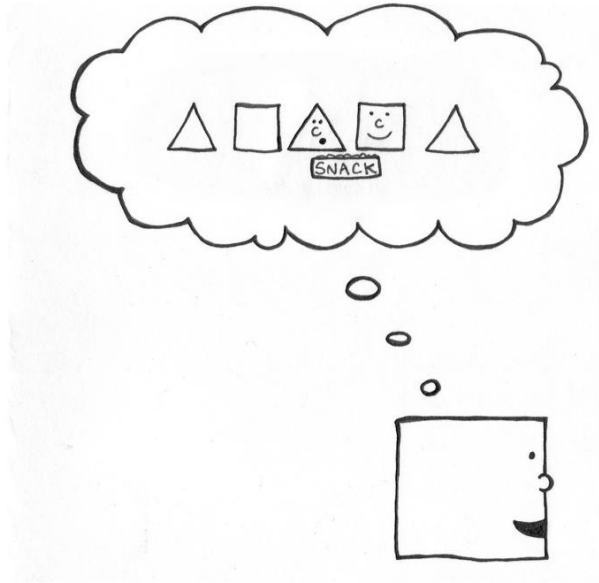

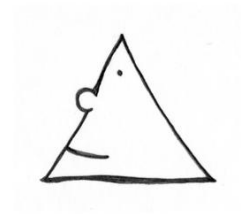

I will play with you

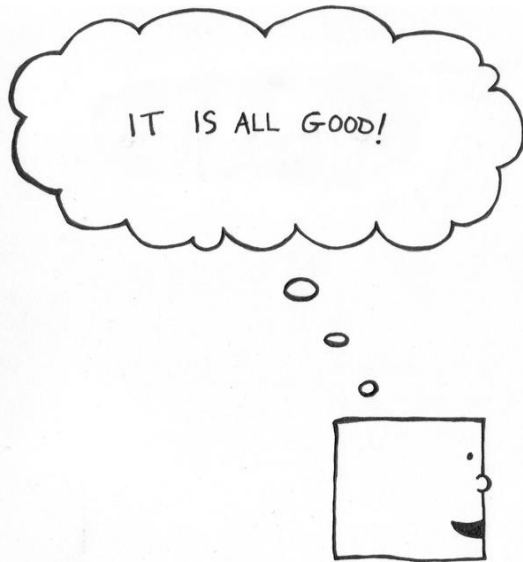

and let you go first.

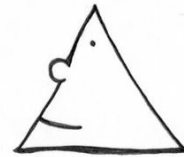

I will save a place for you

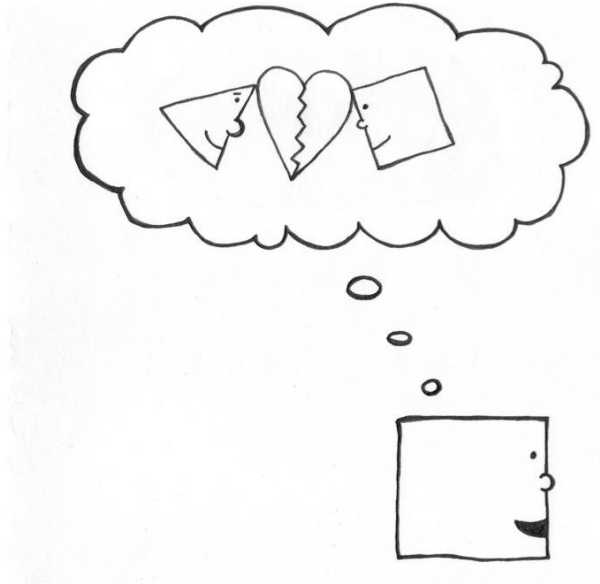

and share what I have.

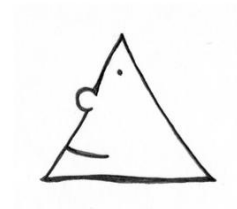

I will laugh when you are funny

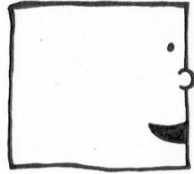

and forgive when you are not.

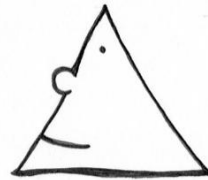

I will help you when I can

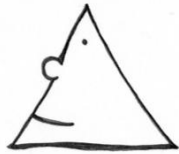

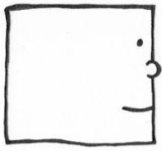

and you will always have my love.

But I do not want a best friend

I just need...

a good friend.
